BALCRANK JET PULSER SEMINAR AT PURDUE . . . Bob Hollingsworth and Carl Crist, Jet Pulser Sales Engineers, participated in a seminar at Purdue University, West Lafayette. Jet Pulser was presented through a slide presentation followed by a demonstration with a Model 4651 Jet Pulser. Attending the seminar were 23 Gulf Oil Company Sales Engineers who also serve as Jet Pulser Representatives. Point of interest: The Purdue Michael Golden Mechanical Laboratories, where the demonstration was held, houses nearly every type of machine tool available, including the Jet Pulser, and is the largest facility of this type in the nation.

SYSTEM 7 ON THE MOVE . . . Currently, over 200 employees report job status via the many small and efficient Data Entry Units (DEU's) located strategically throughout Plant I. Areas implementing the new reporting system include Machine Shop, South Shipping, Receiving, Maintenance and Stockrooms. We're now starting in the Balcrank and Cutting areas — plan to complete first phase (Plant I except the Foundry) by July.

HAPPY COMPANY ANNIVERSARY this week to: Adele Biesbrouck (Cost Accounting), John E. Hall, Sr. (Machine Shop), Thomas J. Burmeister (Engineering), 15 years.

ACCOUNT SALES SEMINAR . . .

A two-day, two-session seminar was conducted this week to update product knowledge and selling techniques for those sales engineers concerned with this segment of our market. During a plant tour, John Stull describes the operation of a Metal Disintegrator Machine. The "MDM" burns holes in manganese steel conveyor flights for Wheelabrator Tumbblasts.

AS A RESULT of a joint effort by MIC and Industrial Engineering, Balcrank routings are now generated via our new computer routing system. The program was started about a year ago in an effort to improve our current system and produce routings on an automated basis. This will insure that the latest routing changes and improvements are provided on each new order release. WFI stock routings are currently being loaded into the computerized routing file. They will be the next part group to appear in the shop on the improved format.

CIRCLE YOUR CALENDAR . . . Wheelabrator Athletic Association has announced Saturday, August 6, as the date for the annual Company picnic. The affair will be held at the Wander Conservation Club picnic grounds. More details to come.

FOR MEN ONLY: Would you like to live five years longer, earn 20 to 25% more; lose only half as much time through illness, and have fewer accidents? Then kiss your wife every morning before leaving for work! According to a study by a life insurance company in West Germany, men who do so seem to fare better in all these respects. Frankly, we're skeptical of the benefits, but it's a nice custom anyway.

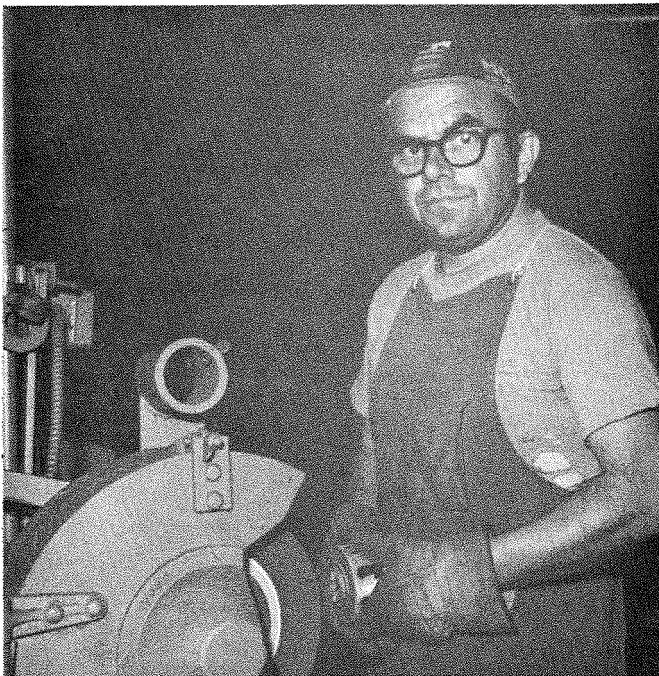

WELL KNOWN LOCAL ESTABLISHMENT HONORS WELL KNOWN WHEELABRATOR EMPLOYEE on the occasion of his recent birthday. Oh, come on guys! EVEN Ardee Freeman can't possibly be 277 years old!

ON THE JOB . . .

JEAN SEYBOLD is secretary to Jim Evans, head of Electrical Engineering. Jean started her career at Wheelabrator entering orders in Abrasive Sales for Anna Sawyer. Crewel embroidery and reading are two of Jean's favorite pastimes.

ROGER GROPP, with 11 years of company service, is a Finish Bench Grinder in Assembly. Born and raised in Mishawaka, Roger, his wife and young son and daughter reside at 1403 East Third Street, Mishawaka. Travel is number one on Roger's list of personal interests.

GOOD JUDGMENT comes from experience. Experience comes from bad judgment.

OVER THE LINE — ILLINOIS WAY were . . .

FRED BALDAUF, Industry Manager-Transportation, in Chicago Wednesday to address the Society of Manufacturing Engineers' Second International Conference on Deburring and Surface Conditioning. Fred's topic was "Plastic Deflashing by Impingement."

RAY LELIAERT, Director-Research & Development, in Des Plaines, Thursday, to attend American Foundrymen's Society Research Board meeting.

Also in Des Plaines — TIM BLAKE, Research Chemist-R & D, to participate in AFS Sand Reclamation committee meetings.

IF YOU THINK TWICE before you speak, you may never get into the conversation.

AND ON THE SPORTS SCENE . . .

HOME TO ROOST . . . A Team of 15 Athletic Association trap shooters edged out Dodge Manufacturing, 625 to 616, in the annual shoot out last Sunday. Dennis Nitsche and Lynn Kaser tied for high Wheelabrator guns breaking 47 out of 50 birds. Congratulations for bringing the trophy home to roost!

DAWN GOLF LEAGUE — June 6 results — Low Individual Scratch-40 C. Barnes; Low Individual Net-28 J. Smith; Low Team Scratch-86 Team 1 (B. Gasko, G. Christy); tie for Low Team Net-58 Team 3 (J. Smith, B. Smith) and Team 7 (S. Bobek, M. Hillebrand).

TWILIGHT GOLF LEAGUE — May 30 and June 1 — No matches scheduled due to holiday.

FORECAST . . . Clear skies — Saturday high in the 80's, low in the 50's. Sunday high in the 90's, low in the 60's.
