## NOTICE TO ALL EMPLOYEES

It has come to our attention that employees of MCSD are parking on Byrkit Street in front of the office portion of our building.

Not only do city regulations limit parking to two hours and subject violators to fines, but this space is necessary for the convenience of customers and other visitors.

Since ample off-street parking space has been provided for your convenience, we would appreciate your cooperation in this matter. **Our plant security force has been instructed to enforce these regulations, effective immediately.**

**IN CASE YOU DON'T KNOW . . .** The average person takes 18,000 steps a day and walks about 65,000 miles during a lifetime. If you're not average, get a pedometer.

**IF YOU DON'T INTEND** to do anything about a problem, it's silly to worry about it. If you intend to solve it, worry isn't necessary.

**SHINE!** But don't blow out the other person's light.

**"I suppose you're going to wait for the last minute before you repair the lawn mower."**

**CHANGING HOUSEHOLD RULES . . .** Husband's in the kitchen and the wife's off in the office? The idea may sound strange, but it could become common because many young Americans are receptive to a husband and wife exchange of roles, reports the American Council of Life Insurance.

In the Council's latest national survey, the opinions of young people between the ages of 18 and 24 were split evenly down the line. Some 50 percent of the youth interviewed said they approved of spouses exchanging roles. An equal proportion, however, disapproved, either moderately or strongly with this idea in mind.
