AUGUST 31, 1978

FROM ALL OF US — TO ALL OF YOU . . .
From all of us who participated in last Saturday's fun, to all of you who, not only this year but in the years past, contributed your time and talent to make the annual WAA picnic a smashing success, our sincere thanks. Your efforts are appreciated!

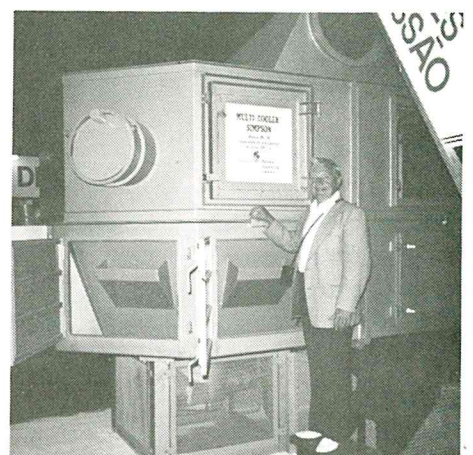

CELEBRATING 15 YEARS OF COMPANY SERVICE this week are **Kenny E. Lewark**, Receiver-Stores & Receiving (August 29) and **Charles E. Morgan**, Stock Handler-Steel Shop (August 29). Congratulations, guys!

NEW FACES . . . Welcome to **Linda L. Dolson**, Secretary-Materials Management.

LABOR DAY is second only to Christmas as the most dangerous holiday, so drive carefully, sanely and courteously. See you Tuesday!

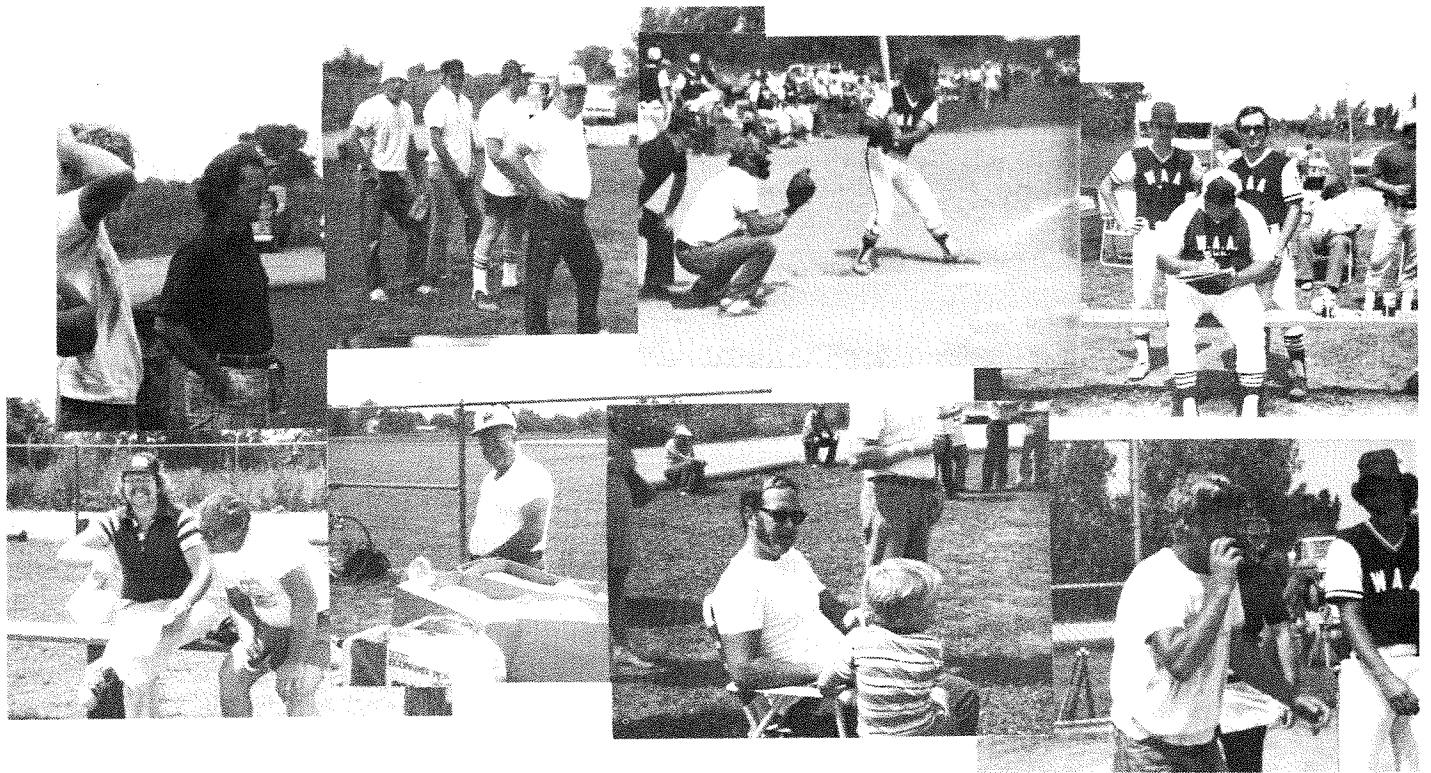

ON THE JOB at Wheelabrator de Mexico . . . For several months our **Hank VanWaeyenberghe**, Foreman-Assembly, served as an "on-the-floor" consultant, as well as instructor for the training of Assembly personnel at our Mexican operation. During Hank's tenure in Mexico the 22 cu. ft. Super II Tumblast (left) was assembled for shipment to Nissan-Mexicana. This was one of three machines ordered, including a 4-wheel Monorail and a Special Suction Blast Cabinet. (center) Hank, Assembly Foreman **Lorenzo Esquevel** and Engineering Manager **Juan "Hans" Sohn**. (right) Hank and his Assemblers.

"SHOWING AND TELLING" the Wheelabrator story at the 12th National Machinery Fair held recently in San Paulo, Brasil, was our sister company, Wheelabrator Sinto do Brasil. (left) Sales personnel and the Sinto Molding Machine — Sinto molding machinery is manufactured and marketed in Brasil. (center) Plant Manager **Jack Beery** and Engineer **Pedro Saez** point out the Whiting ladle. (This biggie measures 56 inches in diameter.) (right) **John Burlingame**, Vice President-International — and sometimes Wheelagram photographer — stands by the Simpson Multi-Cooler.

AND WE CALL THEM OLD TIMERS????

With enthusiasm and team spirit that would warm the cockles of Howard Cosell's heart, WFI "Old Timers" displayed their skill with bat and ball at the August 6 Old Timers game and emerged triumphant over WAA Softball Champs 6-4.

A NUTT BETTER THAN A MALE . . . On September 1, 1878, Miss Emma Nutt became the first woman to man a switchboard at the Telephone Dispatch Company in Boston. Until the time of her employment, men had always served as switchboard operators, but their reputed rudeness to telephone subscribers caused the company owners to switch sexes.
