VOL. 11 NO. 39

OCTOBER 20, 1978

WE DOFF OUR HATS to the men in Maintenance who worked around the clock a week ago Saturday nite until 6 P.M. on Sunday to locate and repair a water leak — and to “Moose” DeGeeter, plant guard, who discovered the problem on his rounds. Because of their efforts, the plant was able to work according to schedule last week.

Working in crews along with **Dick Naragon, Bob Reihl** and **Don Moran** as superintendent and foremen, respectively, were **John Medich, Dave Miller, Merv Phillips, Armand Spitaels** and **Maurie Bonnie**. Thanks, guys!

PROFIT . . . HERE'S WHERE IT GOES!

PROMOTIONS . . . Congratulations to **Dave O'Dell**, promoted to Project Manager-Boeing Wing Peening Machines; **Dave Hanson**, to Project Engineer-Special Blast Equipment; **George Delio**, Assistant Supervisor-Applications Engineering. Good luck in your new assignments, guys!

VOLUNTEERING THEIR EXPERTISE to this year's **Junior Achievement** program are: **Trish Conley, Elaine McCool, Dave Lange, John Earl, Pat Nagy** and **Walt Wolf**. Advisors are still needed — interested? Contact **Pat Nagy** (ext. 225) or **Walt Wolf** (ext. 329).

Back to us . . . one way in the purchase of modern, efficient equipment to make our jobs easier and safer. Tool Makers (l to r) **Bob Stief, Don Waumans, Gene Bradley, Pat Kowalski** and **Jim Kite** show us their new Bridgeport Milling Machine — used for the maintenance and construction of dies, jigs and fixtures. (Missing from the photo is **Lenny Krueger**.)

A CONTINUING EDUCATION CONFERENCE will be sponsored by Chapter 30 of the Society of Manufacturing Engineers tomorrow at IUSB's Continuing Education facility — 1700 Mishawaka Avenue, South Bend. Industrial Engineering's **Randy Schleisman** tells us that along with the presentation of current manufacturing engineering technology, the program will include a plant tour of the Bendix Energy Control Division (Aircraft Fuel Controls). Certified manufacturing engineers will receive one credit point per hour toward recertification. Anyone interested who has not enrolled, may do so tomorrow morning between 7:30-8:15 A.M.

Randy Schleisman, S.M.E. Conference Chairman

NEW FACES . . . Welcome to **John A. Taller**, Designer-Engineering.

MOTHERS-IN-LAW DAY, OCTOBER 23 . . . After thousands of years, the scorning, maligning, slandering, and poking fun at mothers-in-law may be coming to an end. For on October 23, a day that will live in the heart of every mother who is also a mother-in-law, Americans will celebrate Mothers-in-Law Day.

The object is to refurbish the distinctly negative image of mothers-in-law as interfering, nagging shrews. In actual fact, most Americans don't accept that description at all! Recent studies disclose that most people like their mothers-in-law.

So, honor the mother of your spouse October 23 (and for that matter, all the days of the year, as well).

YOU MAKE IT HAPPEN — THE UNITED WAY . . .

Office personnel checked into the R & D auditorium a week ago Wednesday to hear the United Way story — Have you pledged your fair share?

BEST IMPROVEMENT IN SAFETY FIRST was earned by Team 10 for the month of August. Team 10 is comprised of men from the third shift in Areas 1541, 1543 and 1546 — Plant 2 and Metal Engineering. Congratulations!

HAVE YOU picked up your ticket for the **Annual Dinner Dance** Saturday, October 28, BK Club??? By all means, if you have not, see your area AA rep — only \$10 per couple (dinner tickets sold in advance only).

ON THE SPORTS SCENE . . .

TUESDAY BOWLING LEAGUE (October 17): Balcrank (**R. Pflugner, W. Young, J. Downing, D. Ansbaugh, H. Love, O. Campbell**) took first place; Individual High Single Game (224) **R. Good**; Individual High Three Games (620) **L. Baker**; Team High Game (977) Checkmates (**R. Rothy, C. Barnes, N. Soule, J. Jenczewski, F. Maes**); Team High Three Games (2817) Spirits (**B. McConahay, R. DeVolder, R. Good, K. Tucker, J. Kaniewski**).

Published weekly by and for employees of Materials Cleaning Systems Division.
