SIGNIFICANT GAINS . . . Wheelabrator-Frye achieved significant gains in sales and net income in the first three months of 1978. Sales were \$136,675,000, an increase of 21% from sales of \$113,081,000 in the first three months of 1977. Net income was \$5,760,000, up 30% from net income of \$4,420,000 in the January-March period of last year.

All of our lines of business contributed to the record results, and our environmental, energy and engineered products continued their outstanding sales and profit performance.
