THERE IS NO SUCH THING AS A FREE LUNCH! With the cost of living choking us to death, you'd think we'd be smart enough to send representatives to Washington to stop the spending spree that's causing it all. The trouble is that there are still too many of us in this country who don't realize there is no such thing as a free lunch. We pay for every government benefit we get — usually far more than it's worth. If we don't pay in taxes, we pay in inflation — higher prices for everything we buy.

WE SHOULD ALL REMEMBER ... After a number of people had put up with the rude behavior of a young salesclerk, a middle-aged woman's turn came at the counter. When he gave her the same treatment, she stopped him abruptly. "I think you have things mixed up, young man," she said. "You are overhead here, and I am profit!"
