At the OLD TIMERS GAME

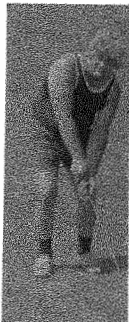

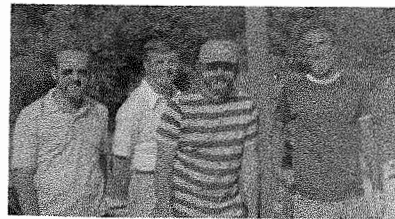

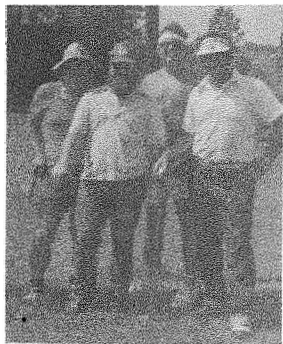

EXPERIENCE SUCCUMBS TO THE RAZZLE DAZZLE OF YOUTH... Breaking a six-year winning streak, Wheelabrator's Softball Team took Wheelabrator Old Timers 6-4 at the annually-held game. (By the way, what's this we hear about a second game being played with the distaff set and the winners were — you guessed it — the ladies!)

THE STORY OF THE LITTLE RED HEN

Once upon a time there was a little red hen. She scratched all about the barnyard till she finally uncovered some grains of wheat. She called her barnyard neighbors to come and see her discovery.

"All we have to do is plant this wheat and we will have delicious bread to eat," said the hen. "So who will help me plant it?"

"Not I," said the duck. "Not I," said the goose. "Not I," said the pig. "Not I," said the cow. "Then I will do it myself," said the little red hen. And she did.

Soon the wheat began to grow. The hen watered the crop and it grew tall and golden until it was ready to be harvested. "Who will help me reap the grain?" asked the little red hen.

"Not I," said the duck. "It's not my job classification," said the goose. "I'd lose my unemployment compensation," said the pig. "I'd jeopardize my seniority," commented the cow. "Then I will," said the little red hen. And she did.

She set about to harvest the wheat, and finally, when she had ground the grain into flour, the time had come to bake the bread. "Who will help me bake the bread?" asked the little red hen.

"I'd lose my welfare benefits," said the duck. "Not unless I get time and a half," said the goose. "I'm a drop-out," replied the pig, "and I'd need to receive subsidized training." "I can't be the only helper," answered the cow. "That's discrimination." "Then I will," said the little red hen. And she did.

She kneaded the dough and baked the bread — five big loaves that sent a delicious aroma all through the barnyard. Soon her neighbors were at her door asking for their share. "No, no," said the little red hen. "I asked for your help, but each of you had some excuse. Now I will enjoy all five loaves myself."

"Unfair," cried the duck. "Excess profits!" yelled the goose. "I demand my equal rights," shouted the cow as she went off to file a formal complaint. Soon a government agent came to visit the barnyard and talk with the little red hen. "You must not be so greedy," he said. "But I earned the bread," said the little red hen.

"Of course," replied the agent. "That is an important part of our wonderful free enterprise system. Anyone can earn as much as he or she wants." The little red hen looked puzzled as the agent continued. "Under government regulations the productive workers must divide their earnings with those less fortunate."

And so the bread was divided, and everyone lived happily ever after. But the little red hen's neighbors wondered why she never again baked any bread.
