Materials Cleaning Systems Division
Wheelabrator-Frye Inc.

VOL. III NO. 17

APRIL 27, 1979

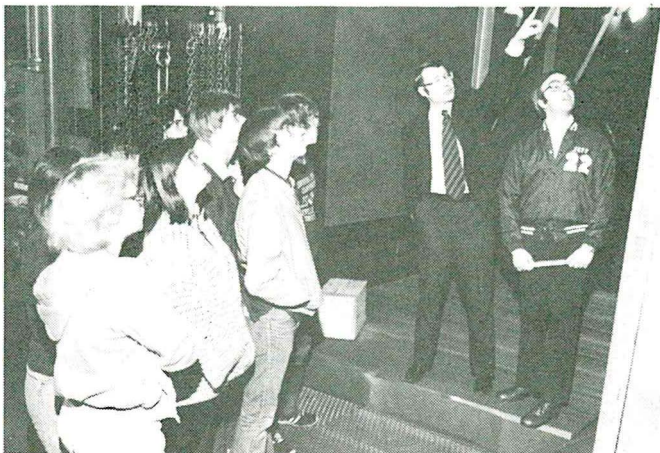

MARKING 10 years of company service this week are: **Ken Gamble**, Millwright-Maintenance Plant 1 and **Cas Deka**, Buff & Polish-Balcrank Finish Department. Congratulations, guys!

WFI ON THE MOVE . . . According to the latest FORTUNE 500 listing, Wheelabrator-Frye moved up from 401 to 302 in sales among the 500 largest industrial corporations.

THE SUBJECT IS . . . Instructor at the Manufacturing and Fabricating Seminar, conducted annually by the Metal Fabricating Institute and held at Purdue University, was **DUKE MALLORY**, Manager, Technical Development-Marketing. The seminar is designed for structural and plate fabricators, and short-run stamping and sheet-metal fabricators. Duke's subject — "Systems Approach to Environmental Steel Descaling."

Our two gentlemen from the South — **DEL EVANS**, Southern Regional Manager and **JOE HOFFMAN**, Account Sales Engineer-Southern Region, recently addressed the 15th Annual Convention of the National Association of Pipe Coating Applicators (NAPCA). Their subject — "Surface Preparation of Steel for Coatings Applications."

"PROJECT BUSINESS" CLASSES TOUR MCSD . . .

"Project Business" students from Mishawaka's Schmucker Middle School were on the scene recently to see free enterprise in action. This particular class is taught by MCSD's **PAUL SIMPSON** and **WAYNE BENITZ**. Serving as tour guides during the youngsters' visit were: **DOUG ARMSTRONG**, **JEFF DOWNING**, **JOHN EARL**, **TOM FOZO**, **TED KOSTILNIK** and **KEN MUMBY**.

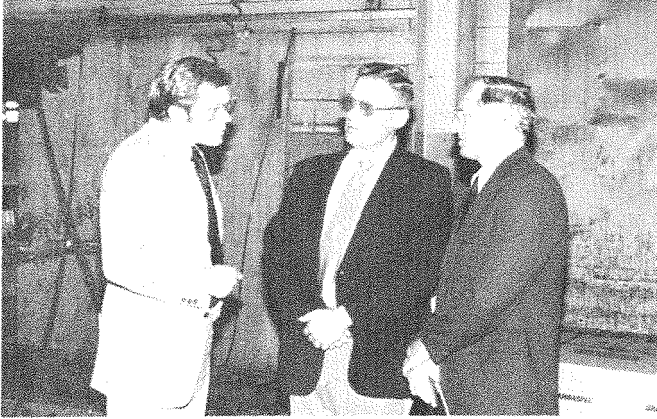

THE HEADMASTER AND HIS FACULTY . . .

Over 75 maintenance, purchasing, engineering and supervisory personnel of Caterpillar-Mapleton recently participated in an in-plant training session conducted by WFI's Schoolmaster **Gene Tarabek** and his "whiz kids" **Bruce Berger**, **Ken Carlson**, **Dave Griffith**, **Macon Jones**, **Carl Loan** and **Katie McKeown**.

VISITING OUR FACILITY last week was Bill Huelsen, Environmental Control, American Foundrymen's Society.

Bill (center) and Dick Slocum (r), Superintendent-Foundry, pause during a tour of Plant 2 while Jim Converse, Manager-Plant 2 makes a point.

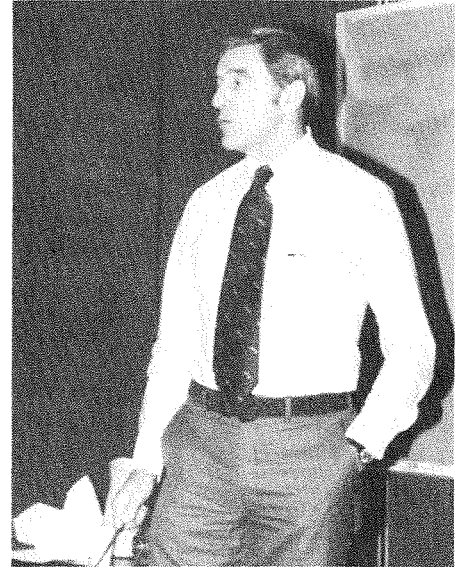

Bill meets with Director of Research and Development, Ray Leliaert and Bob Lindner, Vice President-Engineering.

WE RAN ACROSS an interesting idea the other day for completely eliminating unemployment in this country. Do away with the railroads and insist that all freight be carried on people's backs. That way we'd have jobs enough for everyone. Unfortunately, they wouldn't be very good jobs.

That's exactly what businessmen worry about in various schemes to have the Federal Government create jobs for everyone. We could easily wind up a lot worse off than we are today.

The kind of jobs we need are jobs in which people produce things other people need and want badly enough to pay for. The best way to get them is to **encourage** private initiative and private enterprise, not **discourage** them by punitive tax laws.

MCS D ENGINEERING and MARKETING personnel were briefed recently on the newest addition to APC's product line — JET III. Developed by the Industrial Fabric Filter Department, the new line offers WFI customers high collection efficiencies, low first cost and low operating costs.

Geoff McLoughlin, Product Manager-JET III, presents the new product line to our personnel.

ATHLETIC ASSOCIATION REMINDERS . . . Once again our Athletic Association is offering admission tickets to Cedar Point, Sandusky, Ohio, at a reduced rate. Cedar Point is open every day from 9 a.m. (rides begin at 10 a.m.) until 10 p.m., May 12 through Labor Day. See your AA rep for further details.

Other good buys, sponsored by the AA, are half-price tickets to area Plitt theaters and USA Roller Skating Rinks.

Editor's Note: Your Editor will be away from the office next Monday through Thursday. Any news items or requests for photographs should be directed to **Paul Noeth, ext. 221.**

Thanks again, Paul!
