SPECIALTY ABRASIVES DIVISION FORMED . . .

The abrasives business has historically been an important contributor to our Division's overall success. While continuing to represent a vital part of our approach to the Finishing business, the Abrasives industry also offers unique challenges as well as opportunities to progress our leadership.

To better accomplish our objectives and provide the necessary management leadership, President Joe O'Callaghan has announced the appointment of **Robert J. Regal** as Vice President and General Manager of the newly-formed Division.

Bob comes to us from Carborundum where he served as General Manager of the Aluminum Oxide Business Unit. Prior to that, he was Marketing/Sales Manager of the Electrominerals Division of Carborundum. A graduate of the University of Scranton, Bob also obtained his M.B.A. from Scranton, and is a native of the Scranton, Pennsylvania area. His wife, Maryann, and three children are in the process of relocating here from the Niagara Falls area.

Bob, welcome to the Wheelabrator-Frye team!
