A THREE-WAY EFFORT FOR QUALITY . . .

MERRILL KITTLESON (r), Manager-Quality Control, congratulates TOM VAN DE WALLE (l), Inspection Foreman, on attaining Non-destructive Level 2 Certification (Dye Penetrant and Magnetic Particle Inspection). Level 2 meets the specification requirements of the American Society of Non-destructive Testing. The course, taught by an instructor from our sister company Whiting Corporation, was held at the facilities of another sister company — Garden City Fan Company. In addition to five Garden City Fan employees, our Chief Welding and Metallurgical Engineer JOHN VASELIN completed certification requirements.

IT'S ALL IN THE FAMILY . . .

Personnel from HESSCO, the newest member of the Wheelabrator family team, were in Mishawaka last week to meet MCSD personnel and to familiarize themselves with our manufacturing process, inventory and other areas. In short, "how we will do business together." (photo left) CHARLIE CARLIN, Marketing Manager-Abrasive Products (l) confers with HESSCO President FRED HESTER. (photo right) Touring the Plant 2 facility with Manager JIM CONVERSE (l) were (l to r): JERRY ELLISON, NED LANDERS and BILL WEST.

IN FROM THE FIELD . . .

PFP sales personnel were in Mishawaka last week to review and critique third-quarter performance and firm activities for 1980. Technical update was also presented on the division's new Circlon line of round bowl vibratory finishing machines. (l to r) JEFF NELSON, Sales Engineer-Eastern Region; DAN SPINNER, MCSD Regional Manager-Central Region; DON CHLEBEK, Project Engineer-Equipment; TOM MOTT, PFP Division Manager; GREG HIBISKE, Supply Sales Engineer; JOHN DIVINE, Sales Engineer-Central Region and DON PASSEHL, Sales Engineer-West Central Region.

SERVICE ANNIVERSARIES . . . Congratulations to Gerald Christy, Maintenance Welder Trainee, who celebrates 10 years of company service tomorrow.

NEW FACES . . . Welcome to: Bruce R. Taylor, Staff Accountant Trainee; Chandler C. Young, Blastrac Field Technician.

THE LAST GOODBYE . . . for (r to l) Mallory, Peters and Tenney. (Lunch at Pat's will never be the same!)

HALF OF HAPPINESS is getting what you want; the other half is wanting what you get.

On The SPORT SCENE...

ATHLETIC ASSOCIATION SPONSORS BUS TRIP . . . Sunday, October 28 is the day — Lions vs Bills is the game — Pontiac Stadium is the place. See your area AA rep for reservations. The \$40 per couple cost includes transportation (buses leave South parking lot at 7 AM), tickets and dinner at Win Schuler's in Jackson.

DISCOUNT TICKETS AVAILABLE . . . Available from AA reps are discount tickets (\$2.25 each) for the University Park Mall Theaters. This good deal is a great idea for Christmas stocking stuffers — especially if you have a family of teenagers!

TWILIGHT GOLF LEAGUE WINNERS ANNOUNCED . . .

(left) This year's championship team is Team 12 (l to r) LOUIE COOKIE, JOHN BAKER, SPIKE SINDERS, RAY HULLINGER. This team also captured First Team Low Scratch. (center) Winners of First Team Low Net are members of Team 8 (l to r) BOB TRUEX, JERRY ANKNEY, JOHN STULL and BILL SHULTZ. (right) JOHN TEETERS, captain of Team 4 was honored for his "Hole-in-One." Not on camera, but the champ of Individual Low Net and Individual Low Scratch is HARRY BRESKE. Congratulations to all our champions!

RETIRING ARTIST PETERS admires the farewell card executed by his successor, HAROLD PAUL. (Harold: Tony joins us in welcoming you to Marketing Services and Wheelabrator.)

THE MIDDLE YEARS mark that quiet, peaceful, pleasant period between completing the children's college education and starting to help with the first grandchildren. The middle years usually last from three to six months . . .

A do-it-yourself awareness survey

INSTRUCTIONS: Allow one (1) point for every item you can check in the list below.

Have you ever

- Driven a car
- Crossed a bridge
- Ridden in a train
- Repaired a car
- Built a building
- Plowed a field
- Owned a refrigerator
- Worked in a factory
- Flown in a plane
- Used a typewriter

If your score totals one (1) or more, the Wheelabrator® process already has touched your life.

The Wheelabrator Process helps things work better, look better, last longer, cost less.

Almost any product you see or use that has cast or forged metal, fabricated or structural steel, molded rubber or plastic components, probably was exposed as it was made to one of our cleaning and finishing processes.

Because industry uses our equipment and systems—airless abrasive blast cleaning or precision vibratory finishing—for surface preparation on an endless variety of products and parts—everything from a tiny typewriter gear to an entire railroad car.

Our processes and systems also are environmentally engineered, to do their essential work without polluting the air, land or water about us.

So besides helping to make your life a little more comfortable and convenient, we're working to make our world a little cleaner at the same time.
