IT REALLY IS A BIG SHOW! . . . Telling its story at the largest industrial exposition held in the United States — the International Machine Tool Show — was Wheelabrator-Frye's display featuring Delta blast cleaning equipment.

The show is aimed directly at the needs of engineers and managers responsible for purchasing the "master tools" of industry — the machines that produce every conceivable product from automobiles and toasters to planes and guns.

Rod Johnson, Manager-Distributor Sales, reported heavy traffic in the Wheelabrator booth, resulting in the sale of two blast machines, as well as many leads that could provide future sales for Delta, standard blast and precision finishing equipment.
