

the Wheelagram

Materials Cleaning Systems Division
Wheelabrator-Frye Inc.

VOL. IV NO. 32
SEPTEMBER 5, 1980

WFI TOASTMASTERS, PLEASE NOTE: Beginning Tuesday, September 9, the WFI Toastmasters Club will resume its regular schedule, meeting every Tuesday at 5:15 p.m., South Office Building.

Remember: New participants are always welcome. Come and sit in.

MELTER OF THE MONTH . . .

Taking Melter of the Month honors for the July-August period is first shift melter **Ed Ballard**. Ed has over 18 years of company service.

BEST WISHES to Accounting's **Jenny Bidlack**. Jenny, a Billing Clerk-Typist, retired August 1 with 14 years of company service.

CHARLIE RICHHART RETIRES . . . We join the second shift gang in Assembly in wishing **Charlie Richhart** happiness and good health on the occasion of his Wheelabrator retirement. Charlie, a Production Electrician, retired with 12 years of company service.

SERVICE ANNIVERSARIES . . .

Congratulations to:

Harry O. Goodwin
Plant Laborer-Plant 2
25 Years (August 15)

Also marking 25 years of company service, but not on camera, is **Bob Decker**, Overhead Crane Operator-Plant 2.

AFS APPOINTMENT . . . Developmental Engineering's **Bill Cousineau** has been appointed to the Board of Directors of the Michiana Chapter of the American Foundrymen Society. Bill, a WFI Metallurgist, will serve as Chairman of the chapter's Education Committee.

Also serving on the Board as Past Chairman of the Chapter is **Jim Converse**, Plant Manager-Foundry Operations.

NEW FACES . . . Welcome to **Pat Richards, Jr.**, Entry Programmer/Analyst-MIC; **E. Gary Baird**, Account Sales Engineer-Central Region; **Manley D. Breland**, Service Engineer-Southern Region; **Carole A. Fournoy**, Balcrank Literature Clerk-Office Services; **Lauren S. Heltzel**, Programmer/Analyst-MIC; **Randy A. Greenawalt**, Programmer/Analyst-MIC.

PROJECT CONSERVE . . . September 1980 has been proclaimed **Energy Month** in Indiana for the third consecutive year by Governor Otis R. Bowen, M.D. This event is designed to involve communities in energy education and conservation. Energy Month represents a special time for government and Indiana citizens to work together to become a more energy conscious State.

Governor Otis R. Bowen, M.D. (right) presents the official proclamation making September Energy Month in Indiana to **Lieutenant Governor Robert D. Orr** (left), Director of the Indiana Department of Commerce.

TIPS FOR ENERGY SAVERS . . .

Heating water accounts for about 20 percent of all the energy we use in our homes. Don't waste it.

- **Repair leaky faucets promptly.**
- **Do as much household cleaning as possible with cold water.**
- **Insulate your hot water storage tank and piping.** Energy-efficient water heaters may cost a little more initially, but reduced operating costs can more than make up for the higher outlay.
- **Buy a water heater with thick insulation on the shell.** While the initial cost may be more than one without this conservation feature, the savings in energy costs over the years will more than repay you.
- **Add insulation around the water heater you now have if it's inadequately insulated,** but be sure not to block off needed air vents. That would create a safety hazard, especially with oil and gas water heaters. When in doubt, get professional help. When the water heater is well-insulated, you should save from \$8 to \$20 a year in energy costs, much more if it's located in an unheated area of the house.
- **Check the temperature on your water heater.** Most water heaters are set for 140°F or higher, but you may not need water that hot unless you have a dishwasher. A setting of 120°F can provide adequate hot water for most families. If you reduce the temperature from 140°F to 120°F, you could save over 18 percent of the energy used at the higher setting. Even reducing the setting 10 degrees will save more than 6 percent in water heating energy.

To determine water temperature, draw water from the heater through the bottom faucet and test it with a thermometer.

THANKS TO YOU — IT'S WORKING FOR ALL OF US . . . Through your gift to the United Way, 230 youth were matched with adult male/female volunteers through the Big Brothers/Big Sisters program. These boys and girls will find new meaning in their lives through the one-to-one companionship of concerned adults.

YOU MAKE IT HAPPEN THE UNITED WAY!

Thanks to your support of United Way, the Council for the Retarded served an average of 180 mentally retarded and other developmentally disabled clients a day through individualized vocational and rehabilitation training programs at Logan Industries last year.

In addition, 48 families with developmentally disabled children from ages birth to two years, received home-bound services and developmental training.

YOU MAKE IT HAPPEN THE UNITED WAY!

HOW DO YOU VALUE YOURSELF? . . .

What's the surest way to success? It's all in the mind: If you think of yourself as a successful person, the chances are that you will be one. If you think of yourself as a failure, then the chances are greater that you will indeed fail.

Your first step is to determine your own worth, and place full value on yourself. As that notable success, Conrad Hilton, once pointed out:

"Your value is determined by the mold you yourself make. It doesn't take any more energy to expect to be the best housewife, the finest cook, the most capable carpenter.

"It has been my experience that the way most people court failure is by misjudging their abilities, belittling their worth and value. Did you ever think what can happen to a plain bar of iron, worth about \$5.00? The same iron when made into horseshoes is worth \$10.50. If made into needles, it is worth \$3,250.85, and if turned into balance springs for watches its value jumps to \$250,000.

"The same is true of another kind of material — You!"

"IT'S A SMALL WORLD" is the theme chosen by the **Julianna Club** for their annual benefit card party and salad bar.

Support the Club's Scholarship Fund and attend the benefit Thursday, October 2, 7:00 p.m., Marian High School, Mishawaka.
