SAFETY CONSCIOUS . . . Congratulations to **Teams 16 and 12** for taking Safety First honors for the months of January and February, respectively. Team 16 is comprised of Steel Shop and Secondary Fabrication workers; Team 12 includes Foundry, Heat Treat, Core and Cleaning.

A GOVERNMENT that provides total security for its people, foresees and supplies their necessities, manages their principal concerns, directs their industry, regulates the descent of property and subdivides their inheritance — what remains but to spare them all the care of thinking, and all the trouble of living.

WHEELABRATOR'S PROS . . . Our congratulations to **Denny Johnson** and **Dick Markee** — our Salesmen of the Year!

Denny Johnson

Dick Markee

Denny, an Equipment Sales Engineer in the Central Region, has a long, successful career with WFI beginning in August, 1967 as a Service Engineer. As a professional salesman, he employs the right combination of techniques that make him successful. These include planning, thorough identification of the prospect's problem, application expertise for machine selection, hard work and long hours, professional presentation and a close working relationship with his Service Engineer, Account Sales Engineer, Regional Manager, and the Mishawaka office. Results come in the form of orders and customer satisfaction.

Dick began his WFI career in June, 1963 and he too started as a Service Engineer. He has the dual role of Account and Equipment Sales Engineer and headquarters in Portland, Oregon in the Western region. Dick's territory includes many "wide open spaces" and he frequently acts as his own Service Engineer, calling upon his early WFI experience. Dick's successes are accomplished by truly earning the business. He helps his customers optimize their cleaning room applications by calling on them regularly, identifying and solving their problems. In addition, he utilizes complete product knowledge and the old fashioned hard work of many calls per week. It can be said, "Dick does the total job."
