ORGANIZATIONAL CHANGES — Engineered Products Group . . .

Corporate Group Vice President **Tom Begel** has announced the following changes: **J. E. O'Callaghan** assumes direct responsibility for WFI's wholly owned Materials Cleaning Systems businesses worldwide.

J. E. O'Callaghan

Effective immediately, **Bill Wilkinson**, President and General Manager of Wheelabrator Canada, **Bo Klink**, General Manager of Wheelabrator Berger, and **Jim Whitworth**, Managing Director of Wheelabrator International in the United Kingdom, will report directly to Joe. In addition, **John Burlingame**, who retains the operating responsibility for our Mexican, Brazilian, and Australian companies, will report directly to Joe.

J. A. Schroeder

In conjunction with the change in Joe O'Callaghan's responsibility, **Jim Schroeder** assumes direct responsibility for the MCSD in the U.S. as Executive Vice President and General Manager of the division, reporting directly to Joe.

MEETING THE CUSTOMER'S NEEDS . . . The latest addition to our shop area is the "Green Room" — otherwise known as the Small Parts Fabrication Area. Manning the area is Small Parts Fabricator **Jimmy Hall**, a welder by trade.

The area, designed — by ME's **Don Ellingson** — specifically to fabricate small parts rush orders, provides the customer with faster delivery, avoiding long, if any, periods of down time.

Case in point: Last week, the Whirlpool plant located in St. Joe, Michigan, was in immediate need of a head spout for its Special Cabinet Wheelabrator. The order was received by our Parts Department mid-afternoon. Aided by Production Control, the order was literally "walked through" our new procedure. The customer received his part the following morning at 8:30. Normal delivery time — approximately five weeks.

Regional Managers **Larry Bracher** (l) and **Aldo Sartor** (r) learn about the area from **Jimmy Hall** and **Foreman Cal Orbin**.

LEARNING THE SYSTEM . . . Discussing the law of supply and demand with personnel of "Penn Wheels" was Marketing V.P. **Joe Ponteri**. Penn Wheels is one of four Wheelabrator sponsored Junior Achievement companies.

Terri Spice, daughter of Inspection's **Terry Spice**, talks product quality with Joe.

NEW FACES . . .

Welcome to **Constance Chaplin**, part-time Benefits Specialist-Personnel. Working with **Margaret Ping**, Connie will be available from noon til four daily — effective March 2 — to assist employees in solving problems with medical, drugs, dental, hearing and vision coverage.
