GOODBYE, COLUMBUS! We Did It! With one week to spare, General Manager **Jim Schroeder** and his team produced a 34 Super II Tumblast for Columbus Foundry, Columbus, Georgia. Schroeder's team came through — the customer won, we won, and the competition lost!

To be a winner it takes hard work, loyalty and a lot of special effort on the part of many people. Our team has these qualities and more — teamwork did the job again!

With the truck ready to roll, we photographed as many of the team as we could muster at that time. Special note from Jim Schroeder: **"Thanks to everyone!"**

WE MUST HELP MAKE IT HAPPEN!

We can join the Wheelabrator fair share team — just by increasing our pledges 50¢ per paycheck.
