INSURING AN EFFECTIVE TRANSPLANT

Our maintenance department recently moved a number of shrubs from an area near Plant #2 to the front of our main building.

Pictured below is **Willie DeGeeter** watering the shrubs to insure an effective transplant.

We've already received several favorable comments that the change has "spiffed up" the appearance of our main entrance.

Published every other month by and for employees of The Wheelabrator Corporation, 409 South Byrkit Avenue, Mishawaka, Indiana 46544.
